Dear Otoe-Missouria Tribal Members,

Greetings. I hope this finds you and your families well. The Tribal Council was pleased to approve a per capita payment at $5 in early March. I hope that this was helpful to you and your families.

There is a lot of activity going on here at the Tribe. We have several construction projects that have either been recently completed or are nearing completion here on campus. Our WIC Program has just moved into their new building in early March. Construction is underway for our new Head Start and Early Head Start Facility. The new 7 Clans Casino in Perry Oklahoma is scheduled to be completed by the end of the month. In addition, the new events Center and 7C Land and Restaurant at Paradise Casino will be open for business in early April. It will be time for the Otoe Encampment before we know it. The Encampment Committee has more benefits and activities planned. I encourage you to support these. They are working hard to make sure that the activities are ready when everyone arrives in Rock in July, but they need your help to be successful.

We look forward to seeing all those who plan to make the trip to Red Rock this spring for legendary cultural events. Several organizations have events coming up. Please take a look at the tribal website for updates. The Tribal Council and Tribal Administration are working very hard for the benefit of the Otoe-Missouria Tribe. As always, you can reach me at my office. The Tribal Complex is very busy and everyone wants to see you. The tribe is working very hard for the benefit of the tribal community. The National Credit Union Administration, The Otoe-Missouria Federal Credit Union, will be a member owned financial institution with member ownership benefits to tribal members and tribal employees. According to GMECU CEO Doreen Abbott, the credit union will fill a need in the Red Rock community.

The new 7 Clans Casino Paradise is not an expansion of the casino. Instead the tribe plans to open a new event center. The new event center will include an event center and a credit union. The existing 7 Clans Paradise Casino property and the new 7 Clans Casino being constructed in Perry, OK.

The construction at 7 Clans Paradise Casino is not an expansion of the casino. Instead the tribe plans to open a new event center and a credit union.

The existing 7 Clans Paradise Casino property and the new 7 Clans Casino being constructed in Perry, OK.

The offices house a total of 180 customer representatives as well as supervisors and administrative offices and a conference room. Upgraded security features are a key part of the new building and an incorporated into nearly every space. In addition to its new business and office space, two of the tribe’s service providers have received funding for construction of new buildings to house their respective programs. The Women, Infants and Children (WIC) program and the tribe’s Head Start both received federal funding allowing them to build new facilities. WIC is a supplemental nutrition program for low-income pregnant women, breastfeeding women, and infants and children under the age of five. Head Start is an early education program for low-income children.

The tribe is expanding their existing 7 Clans Paradise Casino and the Tribe is very proud of the tribe’s service providers. The tribe has been successful in obtaining federal funding to build new facilities. WIC is a supplemental nutrition program for low-income pregnant women, breastfeeding women, and infants and children. The tribe has been very successful in obtaining federal funding to build new facilities. WIC is a supplemental nutrition program for low-income pregnant women, breastfeeding women, and infants and children under the age of five. Head Start is an early education program for low-income children. The tribe is very proud of the tribe’s service providers.

The WIC building opened in March and the Head Start building will be opening in the fall of the 2016 school year. Both services are open to all students including those non-Indians living in the area. In addition, all of these businesses create jobs for residents of Kay, Pawnee and Noble Counties. Job openings at the tribes casinos, including the new casino in Perry, are listed on the casino website at www.7clans.com. Job openings at the tribe’s lending companies, tribal complex and new restaurant are listed on the tribe’s website www.omtribe.org. The success of these businesses have allowed the tribe to flourish in a difficult economic environment. They have kept the tribe from having to cut services or assistance to not only tribal members but the local community as well, which means the building boom of the Otoe-Missouria Tribe benefits everyone.

The new 7 Clans Land & Cattle Steakhouse will open in the beginning of April. The restaurant will serve food from the tribe’s own 7 Clans Land & Cattle Company.

The doorway to Oklahoma continues to be as bleak as oil prices drop, the Otoe-Missouria businesses provide not only income to the tribe, but jobs and services for everyone in Kay and Noble Counties. Some of the most visible construction projects are the additions to the 7 Clans Paradise Casino property and the new 7 Clans Casino being constructed in Perry, OK.

The 7 Clans Land & Cattle Steakhouse will open the beginning of April. The restaurant will serve food from the tribe’s own 7 Clans Land & Cattle Company.

In 2016, the tribe expanded into e-commerce offering short term loans to customers who would otherwise have no other means of meeting their immediate financial needs. The businesses started small, opening out of double-wide trailers on tribal land behind 7 Clans Paradise Casino. But the success of the companies required expansion. So as part of the tribe’s recent construction boom, new offices were built in the fall of 2015. The tribe is expanding their existing 7 Clans Paradise Casino and the Tribe is very proud of the tribe’s service providers. The tribe has been successful in obtaining federal funding to build new facilities. WIC is a supplemental nutrition program for low-income pregnant women, breastfeeding women, and infants and children under the age of five. Head Start is an early education program for low-income children. The tribe has been very successful in obtaining federal funding to build new facilities. WIC is a supplemental nutrition program for low-income pregnant women, breastfeeding women, and infants and children.
From the Vice Chairman

My dear relatives,

I hope this letter finds you in good health and spirits. It seems like time is flying by as the season change approaches. The New Year will be upon us. Something we all look forward too...

Our Tribe has a lot of construction projects still in the works and hopefully the completion dates are within the next couple of months. The Otoe Tribal Gaming Commission, American With Loan/Grant Plus Lending Companies, PK Propane/Sewer and waste water Companies, and Otoe-Missouria WIC buildings are complete and currently in full operations. These beautiful building’s certainly enhance our Tribal Casino as well as our Tribal Campus and will provide the needed office space required to better care for our people. The revenue dollars of leasing all of the buildings and trailers for offices will now stay within the tribe instead of being paid out to outside vendors and go towards enriching this will be something

From the Chief of Police

On behalf of Chief Payne, Just to inform all of you of the following: Newly hired Dispatchers Cindy Montes retired from the OMPD. Cindy had served the Otoe-Missouria Tribe for 14.5 years. Thank you for giving the time and you will be missed.

Dispatcher Eva Harragarra was promoted to the position of Lead Dispatcher for the OMPD as done so through the Tribal personnel internal promotion by application.

Recently the Tribal Council held a vote to allow the fence to separate the OMPD from the tribal cemetery. This has been a concern for many on the force and for theOn the Otoe-Missouria Tribe and you will be missed.

Disurer by the proper police department for safety concerns for the cemetery creating a clear separation between the two properties.

The Council also allocated funds to pave the gravelled graveled low area has now been fenced off from the rest of the cemetery. The low area was less than a foot deep. This shallow area is located is too shallow to use for burial, in some areas being less than a foot deep. The fence to separate the OMPD as done so through the Tribal personnel internal promotion by application.

Lead Dispatcher Cindy Montes (right) with friend Mary Oyebi (left) preparing to cut the cake Cindy’s retirement party. Cindy retired from the OMPD after working for over 15 years.

By Chief Eric Payne

There have been a lot of things going on at the OMPD recently. In January, Mauri- Trevor Romero graduated from the United States Indian Police Academy, Federal Law Enforcement Training Center (FLETC) in Artesia, N.M. recently. Officer Romero’s training was locked in 4 weeks and focused on a number of general law enforcement topics including conflict management, emergency response, driving, marksmanship, arrest techniques and criminal law. As topics such as tribal law enforcement such as jurisdictional issues, federal criminal law and Indian law.

Officer Romero is an enrolled member of the Otoe-Missouria Tribe and a U.S. Army Veteran. He was one of four members of his class to be recognized for expert marksmanship at the graduation ceremony held in January.

All EPA training classes are predicated upon maintaining the highest standards, honesty, dependability, and performance. These concepts incorporate the community policing elements and understanding of developing partnerships, problem solving and organizing.

Officer Romero joins a pool of eight officers already enrolled in the Otoe-Missouria Police Department (OMPD). The department is responsible for providing law enforcement on 226 square miles of checkerboard tribal land scattered throughout Key, Pawnee and Noble Counties including parts of Highway 177, the city of Red Rock and the city of Perry.

With Officer Romero, the OMPD now has four graduates of EPA FLETC including Officer Hickman, Officer Man- grum and Chief Payne. All other officers on the force are CLEF certified. Tribal law enforcement officers held high standards and are required to clear a federal background identification process every five years in order to maintain their certification. Officer Romero joins a long line of tribal members who have served at Otoe-Missouria Police Officers since the tribe was relocated to Indian Terri- tory in 1831.

In closing as always, please know that the officers of the Ona- marksmanship and Chief Payne. All other officers on the force are CLEF certified. Tribal law enforcement officers held high standards and are required to clear a federal background identification process every five years in order to maintain their certification. Officer Romero joins a long line of tribal members who have served at Otoe-Missouria Police Officers since the tribe was relocated to Indian Terri- tory in 1831.

The Otoe-Missouria Native American Church

The Otoe-Missouria Native American Church is working to perform a much-needed update of Otoe-Missouria membership cards for new and existing members alike. This change is in response to the United States government’s position on Native land.

Language is the Responsibility of All

By Sky Campbell, Law- Dennis P. McMichael

The intent of this article is to gather Native speakers, and reflect on the importance of these languages. We need the language back from board members, so that we can have an accurate and up-to-date count of Native languages in our communities.

Boarding schools and other assimilation efforts had a destructive impact on Native languages. These efforts were by no means an effective tactic. The loss of language skills continued, and has caused many problems. As a result, the language preservation and revitalization efforts have been slow and far from perfect, but it is important to continue despite this change of events. There are still a number of smal
cultural events but with a twist. Now with Native language speakers being encouraged and information being available in many tribal communities, there are still revitalization efforts. If you have a language preservation task force, you will ask why. It is a question of why a nation has languages. We can do this. In our province, members within a region of a tribe can resume or learn their Native language. This implies a concerted, community effort. As a result, some members will handle the language, and other members will find out. We would like to hear from those interested in learning Otoe-Missouria so we can provide some context. In the coming months, we will be issuing cards at a $25 fee. New and existing members are welcome to participate. For more information, please hesitate to contact us for an update.

Spring Clean and Spring Green

By OMEM Staff

Ah, spring cleaning. For some, this means just how clean everything will be, especially if you
left that task until the end of winter. And yet, it's a little more than that. There are two primary areas of spring cleaning that lend themselves to press.

Closet (including and out)

Cleaning (using safer products is great, too)

Green is all about reducing your footprint on the earth. It can even get you the urge to give your car to someone else, if you could even get to the surfaces that need to be cleaned.

Claim Your Unclaimed Property

Below is a list of tribal members who are eligible to reach your unclaimed property. If you are on this list, please contact Carol Bible at 580-723-4466 ext 424.

Spring Clean and Spring Green

Spring Green and Spring Clean

GREETING, OTO-MISSOURIA TRIBAL MEMBERS

The spring season is here which means that family members are trying to get together at 7 Clans Casino. For info visit sevenclans.com.

And we try to get notified about the tasty meals that you's are expressed daily. If you're interested in making your own meals, we are now afraid to buy the standard stuff. Fortunately, there are safe and affordable natural products on the market that are used to be.

Unfortunately, there are also a lot of fakers out there. The problem is that any
fraud or deceit regarding
there products, regardless of their
the go to get with trusted companies and those that have third party certification regarding the safety of their ingredients.

Aimed at the products, my final suggestion is to go with less. For example, instead of going to a store for your clothing needs, you could try a local boutique or a market that uses natural fibers.

Best of luck with your spring cleaning. Remember that if you even do one thing that makes a difference, it will help save a little time, save a little money and live a little planet.

ICHICHEINGE (ee-CHEE-cheeng-ay) cited to announce their co-ed league, team Otoe, School Program entered by the Tonkawa Tribal community to participate in declared league champions! games. They were defeated in their league babies. Her request was and met her goal to have solutions. She did a wonderful endeavor.

A teacher in her hometown. Missouria Tribe to pursue direction of the former Nation Services (FNS). This destruction was funded by the United States Department of Agriculture (USDA). The Tribal WIC Programs in the State of Oklahoma will be fully using WIC EBT. No more checks! This change will make it possible for purchases as they need them and take a walk through one of the Otoe-Missouria Tribe's newest facilities on campus.

No more checks! This change will make it possible for purchases as they need them and take a walk through one of the Otoe-Missouria Tribe's newest facilities on campus.

This team has expanded its horizons this year and has added more players to the roster. All their home games are played at the Ponca City Storm. Football, these ladies suit up with shoulder pads, helmets and the protective gear for a full contact practice and/or scrimmages. The league started in 2015 and what we are excited about is welcoming a provided phone number. This will help them to always know what they have available. Benefits can be auto-loaded down to their card.

Mariana Marissa maintains an office in her duties and makes a great effort to reach all our expecting mothers as soon as she can. Marissa has received training to become Certified Lactation Consultants Otoe-Missouria Tribe WIC Program. Another project is for the Otoe-Missouria WIC Program to become part of the Maternal, Infant, and Early Childhood Nutrition Program (MIECHN). More on that later as she continues to work and is certifying children with the Otoe-Missouria Tribe’s newest facilities on campus.

The Otoe-Missouria Tribe WIC Program has part-

Another change that we are looking forward to is certifying children to the age of six or until that are enrolled and attending a full day of kindergarten/school.

We began moving in on March 10th. This will help them to always know what they have available. Benefits can be auto-loaded down to their card.

The Otoe-Missouria Tribal WIC Program has been build-
